Machine Learning and Knowledge Discovery in Databases: European Conference, ECML PKDD 2010, Athens, Greece, September 5-9, 2011, Proceedings, ISSN 0302-9743, , , Dimitrios Gunopulos, Thomas Hofmann, Donato Malerba, Michalis Vazirgiannis, Springer, 2011, 3642237797, 9783642237799, 649 pages. This three-volume set LNAI 6911, LNAI 6912, and LNAI 6913 constitutes the refereed proceedings of the European conference on Machine Learning and Knowledge Discovery in Databases: ECML PKDD 2011, held in Athens, Greece, in September 2011. The 121 revised full papers presented together with 10 invited talks and 11 demos in the three volumes, were carefully reviewed and selected from about 600 paper submissions. The papers address all areas related to machine learning and knowledge discovery in databases as well as other innovative application domains such as supervised and unsupervised learning with some innovative contributions in fundamental issues; dimensionality reduction, distance and similarity learning, model learning and matrix/tensor analysis; graph mining, graphical models, hidden markov models, kernel methods, active and ensemble learning, semi-supervised and transductive learning, mining sparse representations, model learning, inductive logic programming, and statistical learning. a significant part of the papers covers novel and timely applications of data mining and machine learning in industrial domains.

Addressing the Needs of Mobile Users , Timothy Youngjin Sohn, 2008, , 124 pages. Mobile phones hold the promise of enabling the ubiquitous computing vision, bringing computing power into our daily lives. Using sensors and actuators built into the devices we ....

The Top Ten Algorithms in Data Mining , Xindong Wu, Vipin Kumar, Dec 12, 2010, Computers, 208 pages. Identifying some of the most influential algorithms that are widely used in the data mining community, The Top Ten Algorithms in Data Mining provides a description of each ....

Knowledge Discovery in Databases: ECML PKDD 2010, held in Barcelona, Spain, in ....

Ensemble Machine Learning Methods and Applications, Cha Zhang, Yunqian Ma, Feb 17, 2012, Computers, 337 pages. The primary goal of this book is to give readers a complete treatment of the state-of-the-art ensemble learning methods. It also provides a set of applications that demonstrate ....

Advanced Data Mining and Applications 5th International Conference, ADMA 2009, Chengdu, China, August 17-19, 2009, Proceedings, Ronghui Huang, Qiang Yang, Jian Pei, JoĐœo Gama, Xiaofeng Meng, Xue Li, Sep 10, 2009, Computers, 807 pages. The LNAI series reports state-of-the-art results in artificial intelligence research, development, and education, at a high level and in both printed and electronic form ....

Adaptive Stream Mining Pattern Learning and Mining from Evolving Data Streams, Albert Bifet, 2010, Computers, 212 pages. This book is a significant contribution to the subject of mining time-changing data streams and addresses the design of learning algorithms for this purpose. It introduces new ....
